ABOUT

Junior Full-Stack Developer with 1 year of industry experience completed during a full-time placement year (2024–2025). Skilled in C#, ASP.NET, Blazor, SQL Server, Python automation, and modern front-end workflows including React and Astro. I specialise in building practical internal tools, workflow automation systems, and full-stack applications that improve operational efficiency and data accuracy. I bring a strong ability to quickly learn new technologies, adapt to challenges, and deliver reliable, well-structured solutions.

EXPERIENCE

LLOP Operator @ Pets at Home Warehouse – Stoke-on-Trent

Jan 2021 – Jun 2021 (6 months)

- Operated LLOP (Low-Level Order Picker) safely and efficiently.
- Picked customer orders with high accuracy and speed.
- Packed items securely, labelled orders, and prepared pallets for dispatch.
- Followed warehouse health & safety procedures at all times.
- Worked as part of a fast-moving logistics team to meet daily fulfilment targets.

Retail Assistant @ Bakers and Baristas– Stoke-on-Trent

Aug 2019 – Jan 2020 (5 months)

- Assisted customers with product enquiries and provided friendly, approachable service.
- Replenished shelves, rotated stock, and maintained clean shop-floor standards.
- Operated tills and processed cash/card transactions accurately.
- Helped with promotions, displays, and general store upkeep.

Junior Software Developer @ SDS Group – New Milton

Sep 2024 – Sep 2025

- Supported daily business operations, helping teams resolve issues and improve efficiency.
- Used strong problem-solving and organisation skills to complete tasks to deadline.
- Worked within a team using clear communication and high attention to detail.

Secretary / Operations Support @ Sorica Ltd – Remote

Jan 2021 – Sep 2024

- Managed admin tasks, documents, and general daily organisation.
- Provided consistent communication and support for internal operations.
- Demonstrated strong reliability, independence, and accuracy in task handling.
